To Whom It May Concern:

May I recommend to you the web design services of Marc Lee and Affinity Resources, LLC.

Marc saw us through a lengthy process in which he helped define our need to redesign and add to our existing web site. Marc was involved in helping us apply for funding before getting to the real work of redesigning our web site to include additional content pages and a large online database that features the work of our many associates.

Marc's work was accurate and always met the deadlines he promised. The web site redesign is faithful to the original concept that we very much wanted to keep. The database is flexible and has received an enthusiastic response. Marc's company continues to be available for minor maintenance as needed.

The Christian Community Foundation in Kansas City is pleased to have partnered with Marc and Affinity Resources for this web site redesign project.

Sincerely Yours,

William F. High
President/General Counsel
